WUHAN

Wuhan was one of the first 5G cities in China (even the world), which is now fully equipped with 5G in the final stage. Over 30,000 transmission masts pave the whole city.

IRAN

You wouldn't think that IRAN would get this technology considering the sanctions, but they indeed just finished building-out their first 5G networks.

SOUTH

KOREA

It's six months since the three South Korean mobile operators simultaneously switched on the world's first nationwide 5G networks. The whole country is covered.
